SWANSON SOUNDS KEYNOTE OF LEAGUE

Attempt Made To Blow Up Bituminous Bank At Winburne, Pa. This Morning

Heavy Charge of Explosives Planted By Unknown Parties Let Loose At Nine O'clock

OTHER OUTRAGES IN COUNTY

A fiendish and outrageous attempt to wreck property without regard to the danger to human life was made this morning about nine o'clock at Winburne when a quantity of explosive of some nature which was planted in the cellar undere the Bituminout National Bank exploded.

Good fortune alone accounts for the fact that no lives were lost and that nobody suffered any injury aside from the shock and fright which is to be expected.

The bank has three employees and all had reported for duty at the regular time and were engaged in shaping up their work for the day. Cashier Walter Stewart had stepped out for a moment and on his return to the main floor of the bank was thrown three or four feet into the air by the force of the explosion underneath. Miss Anna Danielson a clerk in the bank was in the vault getting some records and she had a narrow escape from being buried in the debris but the vault was of good construction and the force of the exlosion which lifted the floor was not sufficient to wreck the vault although it did lift the heavy vault door off its hinges and in falling over it narrowly missed Cashier Stewart Walter Holt, teller of the bank, was standing at the counter and although stunned by the force of the blast was uninjured. These employes say that the whole building seemed to raise and then settle again on its foundation. Directly after the explosion the two men, believing another blast may be planted, dropped Miss Danielson out of the side window and then left the banking rooms by the same route. It was fully twenty minutes before entry could be made to the banking rooms as a fire had broken out in the cellar and all efforts were directed to putting out the blaze which did little damage aside from destroying some records stored in the cellar. Little damage was done to the property, even the steam pipes, wiring and fixtures all remaining in their places unharmed. The telephone exchange of the H. & C. Telephone company is located on the second floor of the building as is also the dental parlors of Dr. H. C. Jones. No damage was done in either place excepting that the exchange operator was terribly frightened. The operator was Miss Lena Jimeson. She bravely stuck to her post of duty.

Immediately after the explosion the authorities were notified but up to this hour there has been no clue unearthed which would fasten suspicion on anybody. There has been nothing found in the ruins in the cellar to indicate that an infernal machine or bomb was planted and still that must have been the case as there was no explosive stored there and no means of anybody setting off the blast at the time.

The officials of the bank can ascribe no reason to the attempted wrecking of the institution. So far as they know there are none who have a reason to harbor any grudge, real or fancied, and the popular opinion is that the attempted wrecking of the bank is the work of that element popularly known as the Bolsheviki

Those who were in the vicinity of the bank when the explosion occurred declared that the fumes indicated that both dynamite and black powder were exploded.

Home of Miner Blown Up

The little mining town of Janesville, Gulich township, marked the first outbreak of Bolshevism in Clearfield county on Saturday night last when at 12:30 o'clock a charge of dynamite placed upon the porch of the house occupied by William Copenhaver exploded, tearing up the porch, blowing the doors and windows out of the house and ripping the siding off for a considerable distance.

The house was occupied by Copenhaver and his family, who were in bed at the time and miraculously escaped serious injury, although all suffered more or less from shock and fright.

The dynamiting was the culmination of trouble which has been brewing in that community for the past seven or eight months.

Gulich township is the scene of the mining operations of Mrs. E. J. Mountz, Clearfield county's wealthiest, most energetic and progressive woman coal operator. The men in one of the Mountz mines went on strike about Thanksgiving Day last year and have remained idle ever since.

We are informed that the strike was called because one man became dissatisfied with his work. The story as we get it is that there was about two inches of bony in the coal at the point where this man was mining and he demanded pay for "dead work" for handling the same. As the vein at this point measured five feet two or three inches and the bony was being loaded with the coal and being weighed as it came out the mine, the operator refused to allow the claim for "dead work" and the miner quit. When this man came out the rest of the 125 men employed came out in sympathy and a strike was declared, regardless of the fact that, aside from this "dead work" proposition at this one point, there was no claim for or dispute over wages, as the miners were getting a bonus in addition to the district price of $1.06 per ton. There is a large colony of Socialists in this community, a large number of the miners professing that faith or belief, and as both sides to the controversy made the dispute a matter of principle the mine has been practically idle ever since

Recently some signs of weakening have been manifest among the men and since the walk out first occurred a number who were not affiliated with the U. M. W. of A. or Socialist organizations returned to work.

Copenhaver was the first man to return to work and it is alleged that the dynamiting of his home was the result of an attempt to punish him for his failure to respect the orders of the leaders in the movement to keep the mine idle.

Sheriff Gorman and Deputy Gulhand together with Sergeant O'Donnell and Trooper Oakes, of the State Constabulary visited the scene yesterday and a determined effort will be made to bring the Bolshevists to justice.

Meantime the little community is in a fever of excitement in fearful anticipation of further depredations against the Copenhaver family and other men who have gone back to their jobs.

Munson There Too

The town of Munson staged a couple of blow ups on its own at an early hour this morning. About 3 o'clock a teriffic explosion played havoc with the frame dwelling house occupied by Edward Davis and his family, consisting of his wife, a son and daughter and grandson.

Davis, who is about 65 years of age, has lived at Munson for the past seven years. His mind has been somewhat affected for some time and it is thought he caused the explosion in an attempt to destroy himself and his family. This view is no doubt correct from the fact that about ten minutes after the Davis home was blown to pieces a second blast tore up the dwelling of Mr. and Mrs. James Muirhead about one hundred yards distant. Mrs .Muirhead is a niece of Davis.

The Muirheads arousned by the explosion at the Davis home, were about half way between the two houses when their own home was rent asunder by a teriffic blast.

Eight children were asleep in the Muirhead home, but fortunately all escaped injury.

From the havoc wrought it is thot there were at least a half dozen sticks of dynamite used in each charge.

Neighbors attracted to the scene by the double explosion pulled the Davis family from the debris of their home. The old man was very seriously injured, one ear was torn from his head, while a large splinter of board was forced through his shoulder and penetrated a lung. Mrs. Davis was uninjured. The son, William, suffered severely from the shock, the daughter, Miss Rhoda, was cut and bruised about the head and body by falling timbers and the grandson Reynolds Quick, aged 9 years, suffered numerous cuts and bruises. The injured were conveyed at once to the Cottage hospital at Philipsburg where with the exception of the elder Davis, all are recovering nicely.

OUR MEDIEVAL UNIVERSITIES.

Lord Bryce somewhere sententiously remarks that all the great institutions that enjoy the respect of mankind have their roots deep in the past. Our universities as highly respectable institutions are no exception to this rule. They originated in the middle ages and still bear clear traces of their origin, for the very strength which enables a deeply-rooted institution to weather all kinds of storms necessarily hinders its free mobility. Now it must not be forgotten that our medieval universities were founded not for laymen but for monks and clerics whose business was primarily not with worldly affairs but with the eternal hereafter, says New Republic. We must also keep in mind that the student of the medieval universities were boys or very young men, and that the sum of human knowledge which could be imparted to them was definitely limited to a few well-known texts. In spite of the splendid progress which many of our universities have made, these medieval features are still controlling, especially in this country.

It is estimated that half the acreage which is now occupied by hedgerows in England and ales were sown with wheat there would be a yield sufficient to provide bread for over a million people for a whole year.

Lloyd Garner, another Clearfield soldier lad, has arrived home after many months service overseas

Chaley Feight arrived at the home of his parents, Mr and Mrs Henry Feight on Walnut street last week, having recently been mustered out of the army after services with the A. E. F. overseas.

HOUSE WANTS TO KNOW ABOUT SPRUCE AND WAR CHEMICALS

..WASHINGTON, July 14.—Disposal of the valuable German dye patents by the U. S. Alien Property Custodian to the Chemical Foundation was the subject of an investigation of the House Ways and Means Committee. Congressman Moore of Pennsylvania charges that the most valuable of these patents was disposed of to the Chemical Foundation, the president of which is Francis P. Garvin who is the Alien Property Custodian and further that the Chemical Foundation was formed for the express purpose of getting control of these patents. The Chemical Foundation has repeatedly claimed that the firm was not formed as a commercial enterprise but simply for the purpose of holding these patents until such time as an equitable distribution could be made.

At the same time the House committee probing waste and profiteering in the affairs of the War Department were hearing charges of gross waste and profiteering in connection with the manufacture of spruce for airplanes on the Pacific coast. These charges are preferred by the Providence, R. I. Journal. Affidavits are presented which show that the War Department manufactured spruce at a cost of $650 per thousand which private owners would have manufactured for from $130 to $178 per thousand; that hundreds of miles of two inch plank roads were laid into isolated places and never used; that foodstuffs were carelessly wasted and thrown away and that in one shipment of 21,000 feet of spruce to a point in New England the inspectors passed on only 450 feet as meeting their specifications. Also that large camps were constructed in various mountainous areas only to be abandoned shortly after erection.

MARRIAGE LICENSES

Everett J. Taylor, of Brockport, and Ada Lucinda Dutry, of Sandy township.

Harry B. Elridge, of West Decatur, and Zella Duttry, of Clearfield.

Albert A. Mineweaser and Margaret J. O'Farrell, both of Decatur township.

John Drillock and Margaret Moisey, both of Morann.

Frank Wrobleski, of Glen Hope, and Lucille Popera, of Ramey.

Ed Davis, of Decatur township, and Mary Palmeter, of New York state.

Karl E. Green, of Rochester, N. Y., and Jean Irene Fireman, of DuBois.

Ira C. Rinehart, of Morrisdale, and Bertha Ellen Bumbarger, of Graham township.

MICKIE SAYS

AMERICA MUST FURNISH WORLD COAL SUPPLY

The following bulletin was sent from Washington under date of July 11th,

Prospects are that American coal industry will be called upon to furnish a minimum of twenty-five million tons and possibly forty million tons of fuel for European countries during the coming year, according to a report of conditions abroad by George S Rice, chief engineer of the bureau of mines, made public today by Director Manning of the bupreau. Conclusions in the report were reached by Mr. Rice while a member of a special commission studying the situation in Europe.

The great demand for American coal, the report says, will result largely from decreased production in England, due to the seven hour day obtained by English miners. The report quotes Sir Augland Geddes as calling attention in the House of Commons to the fact that British production will be lessened by 70,000,000 tons during the next year under the award and the price increased by $1.06 a ton.

France Italy, Norway and Spain, it is added, have been largely dependent on England in the past for fuel. French mines destroyed by the Germans will not be reopened for full production within ten years.

If war time restrictions on coal use at home are maintained by England, the report estimates that country will have 23 million tons for export, but there still will be a deficiency of 25 million tons in Europe. There also will be a demand for 14 million tons which England formerly shipped to other quarters of the globe, and America has the only available source of supply.

OLD "WOOD HICK" IN TOWN

Jonas Croyle, of Glen Hope, one of the old time "wood hicks," who contributed a real he-man's share in the wor kof denuding Clearfield county's hills of her many stands of giant pine, oak and hemlock timber, was a Clearfield visitor today and indulged in recounting a little history of lumbering in the old days with his friend Senator Dimeling. Mr. Croyle, a native of Blair county, came to Clearfield county from Huntingdon more than fifty years ago and engaged in lumbering. He worked all over this region and had the reputation of being one of the best men who ever swung an axe in these woods.

During the little visit Mr. Croyle said he worked many a day from daylight to dark for the princely stipend of 75 cents per, and it was real work at that.

Mr. Croyle said the finest hemlock he cut in this section grew on Medix Run, while Senator Dimeling asserted as his belief that the finest hemlock produced in this section of Pennsylvania was taken form Potts Run in Knox township.

NO SIZE LIMIT ON TROUT

A typographical error in our story concerning the changes in the fish law made it appear that fishermen would have to get permits to fish. Such is not the case. The fishermen's license law which passed the house at Harrisburg was killed in the senate and therefore did not become a law.

A law signed by the governor and effective July 11, 1919, removes the size limit as to trout and on and after that date the limit for trout in Pennsylvania has been 25 of any size the angler desires to keep

DENIES U. S. SURRENDERS ITS RIGHT TO DETERMINE COURSE OF ACTION

CLAIM CONCURRENCE REQUIREMENT ON LEAGUE DECISION PROTECTS SOVEREIGNTY OF THIS NATION

MAKES ABLE LEAGUE ARGUMENT

WASHINGTON, July 14—The keynote of the administration fight for a ratification of the League of Nations covenant as given in a speech by Senator Swanson of Virginia in the Senate today.

It is "the requirement for a concurrance of the United States in every decision of the league council absolutely guarantees the nation from surrender of its sovereignty."

Senator Swanson's speech took up the many objections voiced by opponents of the league and he ably defended the covenant plan as well as made many telling points on his colleagues.

WASHINGTON, July 14—President Wilson today asked Senator Hitchcock of the Senate Committee on Foreign Relations to give ample time and notice of his being wanted to give information to the committee. He reiterated his willingness to appear before the committee at any time that any information is required. Senator Hitchcock announced that he would carry the message to the committee this afternoon and that if any information was needed the committee would likely call on the president at the White House for it although the president said he would appear either at the capital or the White House Hitchcock said he had made no arrangements for a personal interview with the president and did not intend to have one.

Senator Swanson was ready today to start the fight for the ratification of the Peace Treaty and the covenant of the League of Nations unamended. Swanson has the opening speech prepared ready for delivery at the sound of the gong and the fact that it is Swanson, and not Hitchcock the regular Administration spokesman, has given rise to many rumors of differences between the President and Senator Hitchcock but these are denied by men close to both parties.

The Senate Foreign Relations Committee met to begin its discussions on the league pact. The upper house has been taking a recess since President Wilson addressed them and all are eager for the oratorical battle to begin.

GIANT DIRIGIBLE SAFELY HOUSED AFTER RETURN TRIP TO AMERICA

LONDON, July 14.—The British dirigible R-34 is safely housed today in its hangar at Pelham after completing the first trans-Atlantic aerial round trip. The ship left Mineola at 11:50 P. M. on Wednesday and landed at Pelham at 3:02 A. M. today, having consumed seventy-four hours and fifty six minutes on its homeward journey. It's flying time on the eastward journey was one hundred and eight hours and ten minutes. On the round trip it was in the air a total of one hundred eighty-three hours and six minutes. On the trip eastward it traveled 3200 miles and on its homeward journey shortened the route to approximately 3000 miles.

HOUSE FAILS TO KILL WILSON VETO

WASHINGTON, July 14—The House failed today to over ride the Presidential veto on the agricultural bill carrying a repeal of the dayight saving law.

Opponents of the daylight saving bill lacked twenty-three votes of the necessary two-thirds vote to pass the agricultural bill over the veto of the President. The final vote stood 247 for and 135 against.

THE SAME OLD FORD WITH OVER THREE MILLION IN USE

On the 15th day of December at 1:55 P. M in the year 1915, the Ford Motor company cast the one millionth Ford Model T motor the famous power plant of the famous Ford car. It marked a great achievement when 1,000,000 motors had been cast consecutively, without a hair's breadth of change from the original design.

On April 8th, at 1:30 P. M. in the year 1919, the Ford Motor Company cast the three millionth Model T Motor, and [illegible] plant any the same in every detail without a change of a hair breadth in any particular, and the fact Ford Model T Motor that was cast Three million, of one piece of mechanism cast one after the other, without a change, is certainly about as strong evidence of perfection as it would be possible to conceive. Already now more than 3,000,000 Ford cars in daily service, and more than 3,000,000 alone carrying this famous Model T power plant.

A further pressing fact is that there has not been a day in the past three years when the Ford Motor Company has not been more than 100,000 cars behind orders for immediate delivery, and the output at the present time is in excess of 3,000 cars per day.

Entered at Post Office at Clearfield, Pa., as second class matter.

Columbia University students are being given exhibitions of Hawaiian and South-African dances, the theory being that it will add to their ability to better understand the native manners and customs. This being the case, the general education of the islander would not be complete unless he were privileged to witness the American "Jazz" and "Shimmy".

Now that the hardware men have joined the ranks of the barbers in taking Thursday afternoon off during the hot summer months it will not be surprising to see them pull off a hardware-tonsorial picnic. The Progress force would like to join their ranks but hardly qualify under hardware although there are a few tough nuts and wooden heads in our ranks.

WILL PRICES COME DOWN?

(Continued)

What little physiology and hygiene we studied during our short service in the little red school house out in Bradford township left an indelible stamp on our mind. In studying the welfare of our bodies we recall that we were taught that the custom of wearing clothing was as a protection for the body, comfort in all kinds of weather and to comply with the code of morals set up by civilized man. Either that little green book bearing the name of Appleton was wrong or else we have departed from the straight and narrow path laid out by the various school mams and masters who always left us after a seven month term to seek higher wages in a more up to date district.

Today none but the aviator and the deep sea diver dress a la Appleton. Protection, comfort and morals so far as clothing are concerned have been thrown into the discard. And these matters have more to do than we think with the high cost of wearing apparel, the second group of necessities of mankind.

Costs of wearing apparel cannot be charged to a trust of any kind, neither can it be charged to profiteering as there is no firm or party of firms have a monopoly on wearing apparel. Prices of ginghams, calicoes, overalls and all the plainer clothing have soared to unheard of prices and for a reason that is or should be plain to everybody. It was only a few years ago that all of these products were manufactured under the twelve hour workday system and at wages which were continually the subject of legislative investigation and the object of the reformers wrath. The wage increases in these lines have been out of all proportion to the selling price as compared with the prices of a few years ago. Who is there who would want to buy wearing apparel at the old prices if working conditions and wages of those young girls and mothers and widows had to go back accordingly? The cost of the raw materials has advanced also but the cost of the raw materials is a small factor in the manufacture of simple clothing.

It is in the manufacture of the better grades of clothing that the highest wages are paid and therefore the prices of this variety are much greater. It is noticeable however that the best values are to be had in the plain, standard cloths and ready mades. It is hard to cover a defect in material without working into a garment a few frills and fancies. The plainer the style the better the material and workmanship must be in order to make it salable.

Now we come down to those flimsy, frilly creations which make it necessary for the up to date clothing manufacturer to carry as many designers as cutters and sewers. When they reach the hands of the local merchant they must be marked at a higher rate of profit as the chances of selling the whole shipment are most remote. They sell only where they strike a popular fancy. Labor, money, comfort, protection and even modesty is sacrificed in their making.

There would be no use studying the price problem from this angle unless we give due considration to the fact that our tastes have changed and it is our tastes that have grown expensive more than the clothing. The winters are no more severe than before though our houses and our offices are warmer. The summers are no hotter although we have the alluring coco cola and buttermilk to help us through the hot day.

In the manufacture of the purely fashionable and stylish models of clothing, be it men's or women's we are adding price to the plainer goods through the use of labor which is needed for the production of plain goods,, through the use of raw material which would contribute much to the warmth of the world if worked up in thicker layers and through compelling the merchant to stock goods which are going to eat into his capital and add to his selling expensese.

There is no likelihood of a decrease in the prices of clothing. The cotton and woolen producer is getting a living wage and one on which he can live in comfort. They are all better off. We are paying the bill but are not we better off too than we were a few years ago?

A Complete Commercial Savings And Trust Service

under National Bank control is trustworthy assurance of reliable banking connections.

This institution's daily growth in new business attracted by an all-round service to local and rural needs, is evidence of sincere and confident help. Your banking needs, in their most difficult forms, should be met by these assurances.

AN ORDINANCE

Authorizing the grading, curbing and paving of that part of the alley between Market street and Locust street extending from Third street to the alley between Second street and Third street, in the First Ward of the Borough of Clearfield, Pennsylvania, and providing for the assessment and payment of the cost thereof.

Whereas a petition has been presented to the Council of the Borough of Clearfield, Pennsylvania, by the present real owners of properties representing two thirds in the number of feet of all the properties abutting on that part of the alley between Market street and Locust street extending from Third sreet to the alley between Second street and Third street, in the First Ward of said borough, requesting the Council to grade said part of said alley, to construct concrete or sandstone curbs and to pave the same with brick, and agreeing to pay for two thirds of the cost of said improvement.

Therefore be it ordained by the Council of the Borough of Clearfield in Council regularly assembled, and it is hereby ordained and enacted by authority of the same:

Section 1. That that part of the alley between Market Street and Locust street extending from Third street to the alley between Second street and Third street in said borough shall be graded, curbed and paved of the uniform width of sixteen feet, and the center line of the paving shall be in the center of said alley.

Section 2. That said alley shall be graded as may be found necessary to give it an even and uniform surface and shall be filled in with a layer of cinders at least six inches thick, that the paving shall be of vitrified brick laid upon a coat of sand and the curbs shall be of concrete.

Section 3. The curbs shall be set and the grading, filling and paving done under the direction of the Boro Engineer. The cost and expense of the construction of the curbs and the grading and paving of said alley shall include all the work and expense incidental thereto, such as grading, filling, setting of curbs, paving, engineering and advertising expenses, and everything whatsoever that may be necessary in order to make a complete job. Two thirds of the cost and expense of said improvement shall be paid by the owners of the properties abutting on said part of said alley, and one third of the cost and expense of said improvement shall be paid by the Borough of Clearfield. The entire cost and expense shall be made up by the Borough Engineer, and the pro rata share or assessment of each property owner shall be determined on the basis of the number of feet of the respective properties abutting on said part of said alley, which assessments, if not promptly paid, shall be collected from the owners of the real estate abutting on said part of said alley in the manner provided by law.

Passed by Council the nineteenth day of May, A. D. 1919, and delivered to the Burgess.

Returned to Council the seventeenth day of June, A. D. 1919 with veto and objections of Burgess attached.

Reconsidered and passed over veto of Burgess at the regular meeting of Council on the seventh day of July, A. D. 1919, by the votes of two thirds of all the members elected to Council.

J. F. PLETCHER,
President of Council.

Attest:
J. D. CONNELLY,
Secretary of Council.

NOTICE

Notice is hereby given that on the 7th day of May, 1919, the Council of the Borough of Clearfield, Pennsylvania, passed an ordinance authorizing the grading, curbing and paving of that part of the alley between Market street and Locust street extending from Third street to the alley between Second street and Third street, in the First ward of said borough, and providing that two-thirds of the cost and expense of said improvement shall be paid by the owners of the properties abutting on said part of said alley, and one third of the cost and expense of said improvement shall be paid by the Borough of Clearfield, that the petition for said improvement was signed by the owners of property representing two-thirds in the number of feet abutting the line of the proposed improvement; and any person interested, denying that said petition was so signed, may appeal to the Court of Common Pleas of Clearfield county within thirty days from the passage of said ordinance.

FOREIGN FIGHTER MUST BE NATURALIZED OR CAN'T VOTE

NEW YORK, July 14—The thousands of red-blooded young Americans who could not wait to get a crack at the Boches until Uncle Sam was ready had better be naturalized if they want to vote in the 1920 election next year. A warning to this effect has been sounded by the Naturalization Bureau here.

Thousands of young men enlisted in the Canadian Army in the British Flying corps and in the French and Belgian armies, according to officials. Those men are for the most part returning to America now and resuming their trades and occupations with never a thought to their loss of citizenship. Under the law they are automatically disfranchised when they swear military allegiance to another government.

Officials advise all such men to go immediately to a naturalization bureau and take the oath of allegiance to the United States.

TEACHERS NOTICE

POLITICAL Announcements

PRIMARY ELECTION
Wednesday, Sept. 17, 1919

FOR COUNTY TREASURER

We are authorized to announce the name of Phil E. Griesemer of DuBois as a candidate for the office of County Treasurer, subject to the action of the Republican party at the coming primaries, Sept. 17, 1919. P. O. Address, DuBois, Pa.

We are authoried to announce the name of Amos Rumberger as a candidate for the office of County Treasurer, subject to the rules of the Republican party at the primary.
P. O. address Houtzdale, Pa.

We are authorized to anounce the name of M. M. Overly as a candidate for the office of County Treasurer, subject to the rules of the Republican party at the coming primary on September 17th, 1919. P. O. address is Clearfield, Pa.

FOR REGISTER & RECORDER

We are authorized to announce the name of Ed. B. Chase of Clearfield as a candidate for the office of Register and Recorder subject to the action of the Republican primary election. P. O. address, Clearfield, Pa.

We are authorized to announce the name of Tone Evans of DuBois, as a candidate for the office of Register and Recorder subject to the action of the Republican primary election. P. O. Address, DuBois. Pa. j3-eod.

FOR PROTHONOTARY

We are authorized to announce the name of George Ralston of Clearfield, Pa., as a candidate for the office of Prothonotary, subject to the rules of the Republican Party at the primaries, Wednesday, September 17th, 1919.

FOR COUNTY COMMISSIONER

I'M OUT FOR COMMISSIONER
Last time I needed only 80 votes to make it. This year I am asking you for your vote as one of the 80, at the Republican Primaries, Sept. 17th.
HARRY L. JONES,
Clearfield, Pa.

We are authorized to announce the name of Frank Kerr, of Madera as a candidate for the office of County Commissioner, subject to the action of the Republican primary election. P. O. address, Madera, Pa.

We are hereby authorized to announce the name of Joseph Pickering of Clearfield borough, as a candidate for the office of County Commissioner, subject to the rules of the Republican party at the primaries Wednesday, September 17th, 1919.

TO THE VOTERS OF CLEARFIELD COUNTY:
I wish to state that I am a candidate for re-election to the office of County Commissioner on the Democratic ticket.
I do not expect to be able to make a general canvas of the County, as the duties of the office require practically all my time in Clearfield, and I don't feel that I should neglect my official duties to the extent required to make a general canvas.
I thank all who contributed to my nomination and election four years ago and solicit the vote and hearty co operation of the Democratic voters at the coming primaries
AUSTIN HANEY.

We are authorized to announce the name of M. F. Graham, of Clearfield borough, as a candidate for County Commissioner, subject to the action of the Republican primary election.
P. O. Address Clearfield. J9-eod-p

We are authorized to announce the name of M. L. Farrell, of Clearfield, as a candidate for the office of County Commissioner, subject to the action of the Democratic primary election. P. O. address, Clearfield, Pa.
I lacked 38 votes the last canvass I made.

CARD OF THANKS

We return herewith our heartfelt thanks to the many friends and neighbors who so kindly assisted us during the time of our sad bereavement in the death of our father and brother, the late John E. McDonald. The thoughtful kindnesses shown and floral tributes given will ever be gratefully remembered.
EMMITT McDONALD
Mrs. P. CUNNINGHAM
Mr. and Mrs. M. P. McDONALD

RASPBERRIES OUT OF SIGHT

Red raspberries are bein gpeddled around the streets at the present time. The youngsters are demanding 25 cents per quart and housekeepers are doing without raspberries this season.—This morning's DuBois Courier.

Clearfield housewives were being asked last week to pay 40 cents per quart for red raspberries. Why?

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Witmer Broome, who attended the funeral of his nephew Walter Broome, at Brookville last Thursday, was taken suddenly ill on his return home. The nature of his illness was not learned at this writing, suffice to say he is in a serious condition. His age is somewhat against his rapid recovery, he being past 75 years.

A large air craft which passed over the southern edge of town Sunday morning caused considerable excitement among those who saw it, as they were afraid the airman would fall as he was flying unusually low, not much more than two hundred feet above the housetops. The crowd was much relieved when they saw him pass safely out of their vision.

A base ball game is scheduled to come off at Athletic Park on Tuesday afternoon at four o'clock. The contest will be between the regular home team and a club hailing from Philipsburg. This will be a game worth seeing, as neither club has lost a game this season.

A son of Harry Mays, who resides near Bloomington, had an arm broken near the shoulder on Saturday evening by being run down by an automobile. The driver, who hails from Ansonville, was not in any wise to blame for the accident, as he tried to prevent hitting the lad, who ran across the road in front of the machine, even to the almost ditching of his machine. The lad was brought to the office of Dr. King, who rendered medical aid sufficient to carry the boy to the hospital. He also received several contusions about the body, evidently from being hit by the fender.

By the overturning of a load of hay on the farm of Leo Smith the other day three young men escaped serious injury by a miracle. Leo Smith suffered a sprained wrist, Frank Whittaker escaped with a severely sprained ankle, while Harry Smith escaped without injury. From the manner in which the wagon upset it is no less than a miracle that the three men were not injured more severely.

Saturday was a gala day at the farm home of Mr. and Mrs. Thomas Humphrey. The event was the celebration of Mr. Humphrey's seventy-ninth birthday. During the day the venerable gentleman was the recipient of many good will offerings from those who had gathered at the farm home to wish him well and many more years of healthful and robust life. Mr. Humphrey is one of the few men yet living in this neighborhood who enlisted in Captain E. A. Irvin's company of volunteers at the outbreak of the rebellion, his company being attached to the First Rifles or 42d Regiment and known as the Old or First Bucktail Regiment, which did such excellent duty during its term of service. This regiment, after a three years service, was mustered out, and most of the old veterans re-enlisted in a new regiment recruited by Col. Hartshorn and others, and known to the end of the war as the 190th Pennsylvania volunteers. Two other old veterans of company K, Mr. Humphrey's old company, are living in Curwensville today, viz: Captain J. E. Kratzer, whose soldier record is above reproach, and Lieutenant John H. Norris, who served under Kratzer in the new regiment, the 190th. Of the members of company B, 149th regiment, also a Bucktail regiment, commanded by Col. John Irvin, and recruited in 1862, less than a half dozen of the one hundred men who went from here and known as company B, are living in the town and immediate neighborhood. Only a few short years more and the Civil war veteran will be no more, only in memory.

Mrs. Chas. Hooven and family of children left on Saturday for Munson where they expect to spend the next two weeks with relatives, and gathering huckleberries in the meantime. Mr. Hooven states that bachelor life does not appeal to him to any extent.

Prof. Gilliland, wh was principal of the Curwensville schools at the time he was called to do his bit over the seas, was a town visitor Saturday. His home is in Snow Shoe. Many people in this town would be pleased to see Prof. Gilliland re-instated in his old position in our schools this winter.

Buy War Savings Stamps.

WEDDINGS

PEARCE-RANKIN

Robley D. Pearce and Miss Maude Rankin surprised their host of friends by journeying to Ardley, Pa., and, on July 1st, having the Rev. E. P. Foresman, uncle of the bride, perform the ceremony which made them man and wife.

Following the ceremony the happy couple left in their car for Ashtabula, Ohio, and after visiting friends there continued their honeymoon trip to Buffalo and Niagara Falls.

They will be at home to their friends at their home on Dorey street after July 15th.

The bride was a most successful teacher in the Clearfield schools for the past several years, while her husband conducts an insurance business and is also a valued employe of the New York Central. The Progress joins their host of friends in sincerest congratulations.

ORGANIZING SONS OF ITALY AT OSCEOLA

Due Palmi Ldge No. 189, Sons of Italy, to the number of fifty, headed by President Fred Guarino, went to Osceola on the morning Pennsylvania train Sunday morning for the purpose of assisting in the institution of a Lodge of the Sons of Italy at Osceola.

When the train arrived a band and large delegation met the Clearfield contingent and marched them to the Red Men's hall where the ceremonies incident to the institution of the lodge were held.

National Secretary Paul Depeso, of Philadelphia, had charge of the work and with his corps of able assistants carried everything through without a hitch.

The new lodge starts out with a membership of about sixty of the leading Italians of that section of the county. Antonio Cimino was chosen president.

Following the organization addresses were made by Secretary Depeso; Fred Guarino and President Cimino.

Y. M. C. A. NOTES

The one hundred and twenty-one Y. M. C. A. boys at Camp BoNarr are having the time of their life. On visitors day they gave a good exhibition and circus. Clearfield boys are holding their own with the boys from other towns in points for wrestling, racing, swimming and tent inspection.

Mr. Kerr, physical director of Ridgeway, leads the setting-up exercises in the morning and W. A. Rounsley, of DuBois has charge of the swimming.

Any of the parents of the boys at camp wishing to send anything up to camp can do so, by bringing it to the association and Mr. Graffius will take it up in his car.

The twilight league has started again. Everybody is invited to these games. The "Y" team plays the city team tonight at 6:30 P. M.

The Y. M. C. A. team defeated Woodland again on Saturday afternoon by the score of 9 to 5. Grampian defeated the Third Ward team by the score of 5 to 4.

Many Cases Of Rheumatisd Now

Says We Must Keep Feet Dry. Avoid Exposure and Eat Less Meat

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasinally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism.

NEW TIRE REPAIR SHOP

We will open on Monday, July 14th, a tire repair shop in charge of men who know the tire repair and building trade from stem to gudgeon. They learned the trade at the Goodyear plant and we can tell you that they know about tires from the raw rubber until the tire is on your car.

ONLY GOODYEAR METHODS USED

In re-treading diamond and ribbed treads we use the same methods that Goodyear uses in building new tires. We also make a specialty of cord tire work. This is something that the ordinary vulcanizing plant cannot do as it requires men of experience to perform this work.

N. Y. C. LECTURE ON EXPLOSIVES

Col. Taylor, Special Agent of the Bureau for Safe Transportation of Explosives will deliver lectures on the handling of explosives and other dangerous articles, as follows:

Y. M. C. A., Clearfield, July 15th, 1919, 8 P. M.

A stereoptican and operator will be provided in order to illustrate the lecture and it is desired that all employes who are connected in any way with the handling of explosives or other dangerous articles in transit will attend this lecture if possible.

Tickets for admission will be obtained from the offices of Asst. Supt. W. A. Hamler at Jersey Shore, Pa., and Trainmaster M. J. Quigley's office, at Clearfield, Pa.

As it is desired to keep a record of the attendance, please be particular to see that the tickets are properly filled out giving your name, occupation and residence, before they are presented at the door for admission.

It is particularly desired that this lecture be well attended and every effort should be made by employes to be present.

Few Folks Have Gray Hair Now

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides restoring gradually darkening the hair after a few applications, it also brings back the glossy and lustre and that soft appearance of abundance.

Gossip for Tonight's Tea Table

Mrs. H. P. Bumgardner and Mrs. J. K. Johnson motored to Pittsburgh Friday last to visit with Mrs. W. H. Williams for a time.

John "Red" Lester and Corporal M. E. Wescott, of the Telegraph Battalion landed at Newport News, Va., on Saturday last and are now at Camp Dix, N. J., waiting to be mustered out of the service.

JULY CLEARANCE SALE

The Savings In This Event Will More Than Repay You For Coming

Hundreds of shrewd women have begun to reap the benefits of this Sale. No doubt hundreds of others will do likewise during the remaining six days of the Sale. Our policy is to carry nothing forward—no goods from one season to another—and we MUST get the decks cleared for incoming goods. For these reasons and others, prices have been made so ridiculously that they are a mere apology for the regular figures earlier in the season. The pronounced profits for early shoppers will surprise even the most diligent bargain-hunters. Satisfy yourself—come as early as possible and you will surely find many items to attract you.

July Clearance of Silks

$1.00 and $1.25 Pongee and sport silks in plain colors and stripes. Sale price, per yard 79c

$1.75 and $2.00 Plain and fancy poplines 36 inches wide. Sale price, yd. $1.39

$5.00 Baronette satins. Sale price, per yard $3.75

SWANSON SOUNDS KEYNOTE OF LEAGUE

Attempt Made To Blow Up Bituminous Bank At Winburne, Pa. This Morning

Heavy Charge of Explosives Planted By Unknown Parties Let Loose At Nine O'clock

OTHER OUTRAGES IN COUNTY

A fiendish and outrageous attempt to wreck property without regard to the danger to human life was made this morning about nine o'clock at Winburne when a quantity of explosive of some nature which was planted in the cellar undere the Bituminout National Bank exploded.

Good fortune alone accounts for the fact that no lives were lost and that nobody suffered any injury aside from the shock and fright which is to be expected.

The bank has three employees and all had reported for duty at the regular time and were engaged in shaping up their work for the day. Cashier Walter Stewart had stepped out for a moment and on his return to the main floor of the bank was thrown three or four feet into the air by the force of the explosion underneath. Miss Anna Danielson a clerk in the bank was in the vault getting some records and she had a narrow escape from being buried in the debris but the vault was of good construction and the force of the exlosion which lifted the floor was not sufficient to wreck the vault although it did lift the heavy vault door off its hinges and in falling over it narrowly missed Cashier Stewart Walter Holt, teller of the bank, was standing at the counter and although stunned by the force of the blast was uninjured. These employes say that the whole building seemed to raise and then settle again on its foundation. Directly after the explosion the two men, believing another blast may be planted, dropped Miss Danielson out of the side window and then left the banking rooms by the same route. It was fully twenty minutes before entry could be made to the banking rooms as a fire had broken out in the cellar and all efforts were directed to putting out the blaze which did little damage aside from destroying some records stored in the cellar. Little damage was done to the property, even the steam pipes, wiring and fixtures all remaining in their places unharmed. The telephone exchange of the H. & C. Telephone company is located on the second floor of the building as is also the dental parlors of Dr. H. C. Jones. No damage was done in either place excepting that the exchange operator was terribly frightened. The operator was Miss Lena Jimeson. She bravely stuck to her post of duty.

Immediately after the explosion the authorities were notified but up to this hour there has been no clue unearthed which would fasten suspicion on anybody. There has been nothing found in the ruins in the cellar to indicate that an infernal machine or bomb was planted and still that must have been the case as there was no explosive stored there and no means of anybody setting off the blast at the time.

The officials of the bank can ascribe no reason to the attempted wrecking of the institution. So far as they know there are none who have a reason to harbor any grudge, real or fancied, and the popular opinion is that the attempted wrecking of the bank is the work of that element popularly known as the Bolsheviki

Those who were in the vicinity of the bank when the explosion occurred declared that the fumes indicated that both dynamite and black powder were exploded.

Home of Miner Blown Up

The little mining town of Janesville, Gulich township, marked the first outbreak of Bolshevism in Clearfield county on Saturday night last when at 12:30 o'clock a charge of dynamite placed upon the porch of the house occupied by William Copenhaver exploded, tearing up the porch, blowing the doors and windows out of the house and ripping the siding off for a considerable distance.

The house was occupied by Copenhaver and his family, who were in bed at the time and miraculously escaped serious injury, although all suffered more or less from shock and fright.

The dynamiting was the culmination of trouble which has been brewing in that community for the past seven or eight months.

Gulich township is the scene of the mining operations of Mrs. E. J. Mountz, Clearfield county's wealthiest, most energetic and progressive woman coal operator. The men in one of the Mountz mines went on strike about Thanksgiving Day last year and have remained idle ever since.

We are informed that the strike was called because one man became dissatisfied with his work. The story as we get it is that there was about two inches of bony in the coal at the point where this man was mining and he demanded pay for "dead work" for handling the same. As the vein at this point measured five feet two or three inches and the bony was being loaded with the coal and being weighed as it came out the mine, the operator refused to allow the claim for "dead work" and the miner quit. When this man came out the rest of the 125 men employed came out in sympathy and a strike was declared, regardless of the fact that, aside from this "dead work" proposition at this one point, there was no claim for or dispute over wages, as the miners were getting a bonus in addition to the district price of $1.06 per ton. There is a large colony of Socialists in this community, a large number of the miners professing that faith or belief, and as both sides to the controversy made the dispute a matter of principle the mine has been practically idle ever since

Recently some signs of weakening have been manifest among the men and since the walk out first occurred a number who were not affiliated with the U. M. W. of A. or Socialist organizations returned to work.

Copenhaver was the first man to return to work and it is alleged that the dynamiting of his home was the result of an attempt to punish him for his failure to respect the orders of the leaders in the movement to keep the mine idle.

Sheriff Gorman and Deputy Gulhand together with Sergeant O'Donnell and Trooper Oakes, of the State Constabulary visited the scene yesterday and a determined effort will be made to bring the Bolshevists to justice.

Meantime the little community is in a fever of excitement in fearful anticipation of further depredations against the Copenhaver family and other men who have gone back to their jobs.

Munson There Too

The town of Munson staged a couple of blow ups on its own at an early hour this morning. About 3 o'clock a teriffic explosion played havoc with the frame dwelling house occupied by Edward Davis and his family, consisting of his wife, a son and daughter and grandson.

Davis, who is about 65 years of age, has lived at Munson for the past seven years. His mind has been somewhat affected for some time and it is thought he caused the explosion in an attempt to destroy himself and his family. This view is no doubt correct from the fact that about ten minutes after the Davis home was blown to pieces a second blast tore up the dwelling of Mr. and Mrs. James Muirhead about one hundred yards distant. Mrs .Muirhead is a niece of Davis.

The Muirheads arousned by the explosion at the Davis home, were about half way between the two houses when their own home was rent asunder by a teriffic blast.

Eight children were asleep in the Muirhead home, but fortunately all escaped injury.

From the havoc wrought it is thot there were at least a half dozen sticks of dynamite used in each charge.

Neighbors attracted to the scene by the double explosion pulled the Davis family from the debris of their home. The old man was very seriously injured, one ear was torn from his head, while a large splinter of board was forced through his shoulder and penetrated a lung. Mrs. Davis was uninjured. The son, William, suffered severely from the shock, the daughter, Miss Rhoda, was cut and bruised about the head and body by falling timbers and the grandson Reynolds Quick, aged 9 years, suffered numerous cuts and bruises. The injured were conveyed at once to the Cottage hospital at Philipsburg where with the exception of the elder Davis, all are recovering nicely.

OUR MEDIEVAL UNIVERSITIES.

Lord Bryce somewhere sententiously remarks that all the great institutions that enjoy the respect of mankind have their roots deep in the past. Our universities as highly respectable institutions are no exception to this rule. They originated in the middle ages and still bear clear traces of their origin, for the very strength which enables a deeply-rooted institution to weather all kinds of storms necessarily hinders its free mobility. Now it must not be forgotten that our medieval universities were founded not for laymen but for monks and clerics whose business was primarily not with worldly affairs but with the eternal hereafter, says New Republic. We must also keep in mind that the student of the medieval universities were boys or very young men, and that the sum of human knowledge which could be imparted to them was definitely limited to a few well-known texts. In spite of the splendid progress which many of our universities have made, these medieval features are still controlling, especially in this country.

It is estimated that half the acreage which is now occupied by hedgerows in England and ales were sown with wheat there would be a yield sufficient to provide bread for over a million people for a whole year.

Lloyd Garner, another Clearfield soldier lad, has arrived home after many months service overseas

Chaley Feight arrived at the home of his parents, Mr and Mrs Henry Feight on Walnut street last week, having recently been mustered out of the army after services with the A. E. F. overseas.

HOUSE WANTS TO KNOW ABOUT SPRUCE AND WAR CHEMICALS

..WASHINGTON, July 14.—Disposal of the valuable German dye patents by the U. S. Alien Property Custodian to the Chemical Foundation was the subject of an investigation of the House Ways and Means Committee. Congressman Moore of Pennsylvania charges that the most valuable of these patents was disposed of to the Chemical Foundation, the president of which is Francis P. Garvin who is the Alien Property Custodian and further that the Chemical Foundation was formed for the express purpose of getting control of these patents. The Chemical Foundation has repeatedly claimed that the firm was not formed as a commercial enterprise but simply for the purpose of holding these patents until such time as an equitable distribution could be made.

At the same time the House committee probing waste and profiteering in the affairs of the War Department were hearing charges of gross waste and profiteering in connection with the manufacture of spruce for airplanes on the Pacific coast. These charges are preferred by the Providence, R. I. Journal. Affidavits are presented which show that the War Department manufactured spruce at a cost of $650 per thousand which private owners would have manufactured for from $130 to $178 per thousand; that hundreds of miles of two inch plank roads were laid into isolated places and never used; that foodstuffs were carelessly wasted and thrown away and that in one shipment of 21,000 feet of spruce to a point in New England the inspectors passed on only 450 feet as meeting their specifications. Also that large camps were constructed in various mountainous areas only to be abandoned shortly after erection.

MARRIAGE LICENSES

Everett J. Taylor, of Brockport, and Ada Lucinda Dutry, of Sandy township.

Harry B. Elridge, of West Decatur, and Zella Duttry, of Clearfield.

Albert A. Mineweaser and Margaret J. O'Farrell, both of Decatur township.

John Drillock and Margaret Moisey, both of Morann.

Frank Wrobleski, of Glen Hope, and Lucille Popera, of Ramey.

Ed Davis, of Decatur township, and Mary Palmeter, of New York state.

Karl E. Green, of Rochester, N. Y., and Jean Irene Fireman, of DuBois.

Ira C. Rinehart, of Morrisdale, and Bertha Ellen Bumbarger, of Graham township.

MICKIE SAYS

AMERICA MUST FURNISH WORLD COAL SUPPLY

The following bulletin was sent from Washington under date of July 11th,

Prospects are that American coal industry will be called upon to furnish a minimum of twenty-five million tons and possibly forty million tons of fuel for European countries during the coming year, according to a report of conditions abroad by George S Rice, chief engineer of the bureau of mines, made public today by Director Manning of the bupreau. Conclusions in the report were reached by Mr. Rice while a member of a special commission studying the situation in Europe.

The great demand for American coal, the report says, will result largely from decreased production in England, due to the seven hour day obtained by English miners. The report quotes Sir Augland Geddes as calling attention in the House of Commons to the fact that British production will be lessened by 70,000,000 tons during the next year under the award and the price increased by $1.06 a ton.

France Italy, Norway and Spain, it is added, have been largely dependent on England in the past for fuel. French mines destroyed by the Germans will not be reopened for full production within ten years.

If war time restrictions on coal use at home are maintained by England, the report estimates that country will have 23 million tons for export, but there still will be a deficiency of 25 million tons in Europe. There also will be a demand for 14 million tons which England formerly shipped to other quarters of the globe, and America has the only available source of supply.

OLD "WOOD HICK" IN TOWN

Jonas Croyle, of Glen Hope, one of the old time "wood hicks," who contributed a real he-man's share in the wor kof denuding Clearfield county's hills of her many stands of giant pine, oak and hemlock timber, was a Clearfield visitor today and indulged in recounting a little history of lumbering in the old days with his friend Senator Dimeling. Mr. Croyle, a native of Blair county, came to Clearfield county from Huntingdon more than fifty years ago and engaged in lumbering. He worked all over this region and had the reputation of being one of the best men who ever swung an axe in these woods.

During the little visit Mr. Croyle said he worked many a day from daylight to dark for the princely stipend of 75 cents per, and it was real work at that.

Mr. Croyle said the finest hemlock he cut in this section grew on Medix Run, while Senator Dimeling asserted as his belief that the finest hemlock produced in this section of Pennsylvania was taken form Potts Run in Knox township.

NO SIZE LIMIT ON TROUT

A typographical error in our story concerning the changes in the fish law made it appear that fishermen would have to get permits to fish. Such is not the case. The fishermen's license law which passed the house at Harrisburg was killed in the senate and therefore did not become a law.

A law signed by the governor and effective July 11, 1919, removes the size limit as to trout and on and after that date the limit for trout in Pennsylvania has been 25 of any size the angler desires to keep

STOCKS OPEN STRONG

NEW YORK CITY, July 14.—U S. S. opened at 112⅞, up ¼. Marine 65½, off ⅝. Corn Products 91, up ⅛. Crucible 125, up 2¾. Beth. B. 98⅛, up ⅜. American Hide & Leather 134⅞, up 1⅝.

DENIES U. S. SURRENDERS ITS RIGHT TO DETERMINE COURSE OF ACTION

CLAIM CONCURRENCE REQUIREMENT ON LEAGUE DECISION PROTECTS SOVEREIGNTY OF THIS NATION

MAKES ABLE LEAGUE ARGUMENT

WASHINGTON, July 14—The keynote of the administration fight for a ratification of the League of Nations covenant as given in a speech by Senator Swanson of Virginia in the Senate today.

It is "the requirement for a concurrance of the United States in every decision of the league council absolutely guarantees the nation from surrender of its sovereignty."

Senator Swanson's speech took up the many objections voiced by opponents of the league and he ably defended the covenant plan as well as made many telling points on his colleagues.

WASHINGTON, July 14—President Wilson today asked Senator Hitchcock of the Senate Committee on Foreign Relations to give ample time and notice of his being wanted to give information to the committee. He reiterated his willingness to appear before the committee at any time that any information is required. Senator Hitchcock announced that he would carry the message to the committee this afternoon and that if any information was needed the committee would likely call on the president at the White House for it although the president said he would appear either at the capital or the White House Hitchcock said he had made no arrangements for a personal interview with the president and did not intend to have one.

Senator Swanson was ready today to start the fight for the ratification of the Peace Treaty and the covenant of the League of Nations unamended. Swanson has the opening speech prepared ready for delivery at the sound of the gong and the fact that it is Swanson, and not Hitchcock the regular Administration spokesman, has given rise to many rumors of differences between the President and Senator Hitchcock but these are denied by men close to both parties.

The Senate Foreign Relations Committee met to begin its discussions on the league pact. The upper house has been taking a recess since President Wilson addressed them and all are eager for the oratorical battle to begin.

GIANT DIRIGIBLE SAFELY HOUSED AFTER RETURN TRIP TO AMERICA

LONDON, July 14.—The British dirigible R-34 is safely housed today in its hangar at Pelham after completing the first trans-Atlantic aerial round trip. The ship left Mineola at 11:50 P. M. on Wednesday and landed at Pelham at 3:02 A. M. today, having consumed seventy-four hours and fifty six minutes on its homeward journey. It's flying time on the eastward journey was one hundred and eight hours and ten minutes. On the round trip it was in the air a total of one hundred eighty-three hours and six minutes. On the trip eastward it traveled 3200 miles and on its homeward journey shortened the route to approximately 3000 miles.

HOUSE FAILS TO KILL WILSON VETO

WASHINGTON, July 14—The House failed today to over ride the Presidential veto on the agricultural bill carrying a repeal of the dayight saving law.

Opponents of the daylight saving bill lacked twenty-three votes of the necessary two-thirds vote to pass the agricultural bill over the veto of the President. The final vote stood 247 for and 135 against.

THE SAME OLD FORD WITH OVER THREE MILLION IN USE

On the 15th day of December at 1:55 P. M in the year 1915, the Ford Motor company cast the one millionth Ford Model T motor the famous power plant of the famous Ford car. It marked a great achievement when 1,000,000 motors had been cast consecutively, without a hair's breadth of change from the original design.

On April 8th, at 1:30 P. M. in the year 1919, the Ford Motor Company cast the three millionth Model T Motor, and [illegible] plant any the same in every detail without a change of a hair breadth in any particular, and the last Ford Model T Motor that was cast. Three million, of one piece of mechanism cast one after the other, without a change, is certainly about as strong evidence of perfection as it would be possible to conceive. Already now more than 3,000,000 Ford cars in daily service, and more than 3,000,000 alone carrying this famous Model T power plant.

A further pressing fact is that there has not been a day in the past three years when the Ford Motor Company has not been more than 100,000 cars behind orders for immediate delivery, and the output at the present time is in excess of 3,000 cars per day.

Columbia University students are being given exhibitions of Hawaiian and South-African dances, the theory being that it will add to their ability to better understand the native manners and customs. This being the case, the general education of the islander would not be complete unless he were privileged to witness the American "Jazz" and "Shimmy".

Now that the hardware men have joined the ranks of the barbers in taking Thursday afternoon off during the hot summer months it will not be surprising to see them pull off a hardware-tonsorial picnic. The Progress force would like to join their ranks but hardly qualify under hardware although there are a few tough nuts and wooden heads in our ranks.

WILL PRICES COME DOWN?

(Continued)

What little physiology and hygiene we studied during our short service in the little red school house out in Bradford township left an indelible stamp on our mind. In studying the welfare of our bodies we recall that we were taught that the custom of wearing clothing was as a protection for the body, comfort in all kinds of weather and to comply with the code of morals set up by civilized man. Either that little green book bearing the name of Appleton was wrong or else we have departed from the straight and narrow path laid out by the various school mams and masters who always left us after a seven month term to seek higher wages in a more up to date district.

Today none but the aviator and the deep sea diver dress a la Appleton. Protection, comfort and morals so far as clothing are concerned have been thrown into the discard. And these matters have more to do than we think with the high cost of wearing apparel, the second group of necessities of mankind.

Costs of wearing apparel cannot be charged to a trust of any kind, neither can it be charged to profiteering as there is no firm or party of firms have a monopoly on wearing apparel. Prices of ginghams, calicoes, overalls and all the plainer clothing have soared to unheard of prices and for a reason that is or should be plain to everybody. It was only a few years ago that all of these products were manufactured under the twelve hour workday system and at wages which were continually the subject of legislative investigation and the object of the reformers wrath. The wage increases in these lines have been out of all proportion to the selling price as compared with the prices of a few years ago. Who is there who would want to buy wearing apparel at the old prices if working conditions and wages of those young girls and mothers and widows had to go back accordingly? The cost of the raw materials has advanced also but the cost of the raw materials is a small factor in the manufacture of simple clothing.

It is in the manufacture of the better grades of clothing that the highest wages are paid and therefore the prices of this variety are much greater. It is noticeable however that the best values are to be had in the plain, standard cloths and ready mades. It is hard to cover a defect in material without working into a garment a few frills and fancies. The plainer the style the better the material and workmanship must be in order to make it salable.

Now we come down to those flimsy, frilly creations which make it necessary for the up to date clothing manufacturer to carry as many designers as cutters and sewers. When they reach the hands of the local merchant they must be marked at a higher rate of profit as the chances of selling the whole shipment are most remote. They sell only where they strike a popular fancy. Labor, money, comfort, protection and even modesty is sacrificed in their making.

There would be no use studying the price problem from this angle unless we give due considration to the fact that our tastes have changed and it is our tastes that have grown expensive more than the clothing. The winters are no more severe than before though our houses and our offices are warmer. The summers are no hotter although we have the alluring coco cola and buttermilk to help us through the hot day.

In the manufacture of the purely fashionable and stylish models of clothing, be it men's or women's we are adding price to the plainer goods through the use of labor which is needed for the production of plain goods,, through the use of raw material which would contribute much to the warmth of the world if worked up in thicker layers and through compelling the merchant to stock goods which are going to eat into his capital and add to his selling expensese.

There is no likelihood of a decrease in the prices of clothing. The cotton and woolen producer is getting a living wage and one on which he can live in comfort. They are all better off. We are paying the bill but are not we better off too than we were a few years ago?

AN ORDINANCE

Authorizing the grading, curbing and paving of that part of the alley between Market street and Locust street extending from Third street to the alley between Second street and Third street, in the First Ward of the Borough of Clearfield, Pennsylvania, and providing for the assessment and payment of the cost thereof.

Whereas a petition has been presented to the Council of the Borough of Clearfield, Pennsylvania, by the present real owners of properties representing two thirds in the number of feet of all the properties abutting on that part of the alley between Market street and Locust street extending from Third sreet to the alley between Second street and Third street, in the First Ward of said borough, requesting the Council to grade said part of said alley, to construct concrete or sandstone curbs and to pave the same with brick, and agreeing to pay for two thirds of the cost of said improvement.

Therefore be it ordained by the Council of the Borough of Clearfield in Council regularly assembled, and it is hereby ordained and enacted by authority of the same:

Section 1. That that part of the alley between Market Street and Locust street extending from Third street to the alley between Second street and Third street in said borough shall be graded, curbed and paved of the uniform width of sixteen feet, and the center line of the paving shall be in the center of said alley.

Section 2. That said alley shall be graded as may be found necessary to give it an even and uniform surface and shall be filled in with a layer of cinders at least six inches thick, that the paving shall be of vitrified brick laid upon a coat of sand and the curbs shall be of concrete.

Section 3. The curbs shall be set and the grading, filling and paving done under the direction of the Boro Engineer. The cost and expense of the construction of the curbs and the grading and paving of said alley shall include all the work and expense incidental thereto, such as grading, filling, setting of curbs, paving, engineering and advertising expenses, and everything whatsoever that may be necessary in order to make a complete job. Two thirds of the cost and expense of said improvement shall be paid by the owners of the properties abutting on said part of said alley, and one third of the cost and expense of said improvement shall be paid by the Borough of Clearfield. The entire cost and expense shall be made up by the Borough Engineer, and the pro rata share or assessment of each property owner shall be determined on the basis of the number of feet of the respective properties abutting on said part of said alley, which assessments, if not promptly paid, shall be collected from the owners of the real estate abutting on said part of said alley in the manner provided by law.

Passed by Council the nineteenth day of May, A. D. 1919, and delivered to the Burgess.

Returned to Council the seventeenth day of June, A. D. 1919 with veto and objections of Burgess attached.

Reconsidered and passed over veto of Burgess at the regular meeting of Council on the seventh day of July, A. D. 1919, by the votes of two thirds of all the members elected to Council.

J. F. PLETCHER,
President of Council.

Attest:
J. D. CONNELLY,
Secretary of Council.

NOTICE

Notice is hereby given that on the 7th day of May, 1919, the Council of the Borough of Clearfield, Pennsylvania, passed an ordinance authorizing the grading, curbing and paving of that part of the alley between Market street and Locust street extending from Third street to the alley between Second street and Third street, in the First ward of said borough, and providing that two-thirds of the cost and expense of said improvement shall be paid by the owners of the properties abutting on said part of said alley, and one third of the cost and expense of said improvement shall be paid by the Borough of Clearfield, that the petition for said improvement was signed by the owners of property representing two-thirds in the number of feet abutting the line of the proposed improvement; and any person interested, denying that said petition was so signed, may appeal to the Court of Common Pleas of Clearfield county within thirty days from the passage of said ordinance.

J. F. PLETCHER
President of Clearfield Borough Council

Attest:
J. D. CONNELLY,
Secretary

FOREIGN FIGHTER MUST BE NATURALIZED OR CAN'T VOTE

NEW YORK, July 14—The thousands of red-blooded young Americans who could not wait to get a crack at the Boches until Uncle Sam was ready had better be naturalized if they want to vote in the 1920 election next year. A warning to this effect has been sounded by the Naturalization Bureau here.

Thousands of young men enlisted in the Canadian Army in the British Flying corps and in the French and Belgian armies, according to officials. Those men are for the most part returning to America now and resuming their trades and occupations with never a thought to their loss of citizenship. Under the law they are automatically disfranchised when they swear military allegiance to another government.

Officials advise all such men to go immediately to a naturalization bureau and take the oath of allegiance to the United States.

TEACHERS NOTICE

The School Board of Goshen township will employ teachers on July 19th at 8 P. M.

JOE. MORRIS. Pres.

With few exceptions, actresses receive less pay than actors of equal prominence.

POLITICAL Announcements

PRIMARY ELECTION
Wednesday, Sept. 17, 1919

FOR COUNTY TREASURER

We are authorized to announce the name of Phil E. Griesemer of DuBois as a candidate for the office of County Treasurer, subject to the action of the Republican party at the coming primaries, Sept. 17, 1919. P. O. Address, DuBois, Pa.

We are authoried to announce the name of Amos Rumberger as a candidate for the office of County Treasurer, subject to the rules of the Republican party at the primary.
P. O. address Houtzdale, Pa.

We are authorized to anounce the name of M. M. Overly as a candidate for the office of County Treasurer, subject to the rules of the Republican party at the coming primary on September 17th, 1919. P. O. address is Clearfield, Pa.

FOR REGISTER & RECORDER

We are authorized to announce the name of Ed. B. Chase of Clearfield as a candidate for the office of Register and Recorder subject to the action of the Republican primary election. P. O. address, Clearfield, Pa.

We are authorized to announce the name of Tone Evans of DuBois, as a candidate for the office of Register and Recorder subject to the action of the Republican primary election. P. O. Address, DuBois. Pa. j3-eod.

FOR PROTHONOTARY

We are authorized to announce the name of George Ralston of Clearfield, Pa., as a candidate for the office of Prothonotary, subject to the rules of the Republican Party at the primaries, Wednesday, September 17th, 1919.

FOR COUNTY COMMISSIONER

I'M OUT FOR COMMISSIONER
Last time I needed only 80 votes to make it. This year I am asking you for your vote as one of the 80, at the Republican Primaries, Sept. 17th.

HARRY L. JONES,
Clearfield, Pa.

We are authorized to announce the name of Frank Kerr, of Madera as a candidate for the office of County Commissioner, subject to the action of the Republican primary election. P. O. address, Madera, Pa.

We are hereby authorized to announce the name of Joseph Pickering of Clearfield borough, as a candidate for the office of County Commissioner, subject to the rules of the Republican party at the primaries Wednesday, September 17th, 1919.

TO THE VOTERS OF CLEARFIELD COUNTY:

I wish to state that I am a candidate for re-election to the office of County Commissioner on the Democratic ticket.

I do not expect to be able to make a general canvas of the County, as the duties of the office require practically all my time in Clearfield, and I don't feel that I should neglect my official duties to the extent required to make a general canvas.

I thank all who contributed to my nomination and election four years ago and solicit the vote and hearty co operation of the Democratic voters at the coming primaries

AUSTIN HANEY.

We are authorized to announce the name of M. F. Graham, of Clearfield borough, as a candidate for County Commissioner, subject to the action of the Republican primary election.
P. O. Address Clearfield. J9-eod-p

We are authorized to announce the name of M. L. Farrell, of Clearfield, as a candidate for the office of County Commissioner, subject to the action of the Democratic primary election. P. O. address, Clearfield, Pa.
I lacked 38 votes the last canvass I made.

CARD OF THANKS

We return herewith our heartfelt thanks to the many friends and neighbors who so kindly assisted us during the time of our sad bereavement in the death of our father and brother, the late John E. McDonald. The thoughtful kindnesses shown and floral tributes given will ever be gratefully remembered.

EMMITT McDONALD
Mrs. P. CUNNINGHAM
Mr. and Mrs. M. P. McDONALD

RASPBERRIES OUT OF SIGHT

Red raspberries are bein gpeddled around the streets at the present time. The youngsters are demanding 25 cents per quart and housekeepers are doing without raspberries this season.—This morning's DuBois Courier.

Clearfield housewives were being asked last week to pay 40 cents per quart for red raspberries. Why?

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Witmer Broome, who attended the funeral of his nephew Walter Broome, at Brookville last Thursday, was taken suddenly ill on his return home. The nature of his illness was not learned at this writing, suffice to say he is in a serious condition. His age is somewhat against his rapid recovery, he being past 75 years.

A large air craft which passed over the southern edge of town Sunday morning caused considerable excitement among those who saw it, as they were afraid the airman would fall as he was flying unusually low, not much more than two hundred feet above the housetops. The crowd was much relieved when they saw him pass safely out of their vision.

A base ball game is scheduled to come off at Athletic Park on Tuesday afternoon at four o'clock. The contest will be between the regular home team and a club hailing from Philipsburg. This will be a game worth seeing, as neither club has lost a game this season.

A son of Harry Mays, who resides near Bloomington, had an arm broken near the shoulder on Saturday evening by being run down by an automobile. The driver, who hails from Ansonville, was not in any wise to blame for the accident, as he tried to prevent hitting the lad, who ran across the road in front of the machine, even to the almost ditching of his machine. The lad was brought to the office of Dr. King, who rendered medical aid sufficient to carry the boy to the hospital. He also received several contusions about the body, evidently from being hit by the fender.

By the overturning of a load of hay on the farm of Leo Smith the other day three young men escaped serious injury by a miracle. Leo Smith suffered a sprained wrist, Frank Whittaker escaped with a severely sprained ankle, while Harry Smith escaped without injury. From the manner in which the wagon upset it is no less than a miracle that the three men were not injured more severely.

Saturday was a gala day at the farm home of Mr. and Mrs. Thomas Humphrey. The event was the celebration of Mr. Humphrey's seventy-ninth birthday. During the day the venerable gentleman was the recipient of many good will offerings from those who had gathered at the farm home to wish him wel land many more years of healthful and robust life. Mr. Humphrey is one of the few men yet living in this neighborhood who enlisted in Captain E. A. Irvin's company of volunteers at the outbreak of the rebellion, his company being attached to the First Rifles or 42d Regiment and known as the Old or First Bucktail Regiment, which did such excellent duty during its term of service. This regiment, after a three years service, was mustered out, and most of the old veterans re-enlisted in a new regiment recruited by Col. Hartshorn and others, and known to the end of the war as the 190th Pennsylvania volunteers. Two other old veterans of company K, Mr. Humphrey's old company, are living in Curwensville today, viz: Captain J. E. Kratzer, whose soldier record is above reproach, and Lieutenant John H. Norris, who served under Kratzer in the new regiment, the 190th. Of the members of company B, 149th regiment, also a Bucktail regiment, commanded by Col. John Irvin, and recruited in 1862, less than a half dozen of the one hundred men who went from here and known as company B, are living in the town and immediate neighborhood. Only a few short years more and the Civil war veteran will be no more, only in memory.

Mrs. Chas. Hooven and family of children left on Saturday for Munson where they expect to spend the next two weeks with relatives, and gathering huckleberries in the meantime. Mr. Hooven states that bachelor life does not appeal to him to any extent.

Prof. Gilliland, wh was principal of the Curwensville schools at the time he was called to do his bit over the seas, was a town visitor Saturday. His home is in Snow Shoe. Many people in this town would be pleased to see Prof. Gilliland re-instated in his old position in our schools this winter.

Buy War Savings Stamps.

WEDDINGS

PEARCE-RANKIN

Robley D. Pearce and Miss Maude Rankin surprised their host of friends by journeying to Ardley, Pa., and, on July 1st, having the Rev. E. P. Foresman, uncle of the bride, perform the ceremony which made them man and wife.

Following the ceremony the happy couple left in their car for Ashtabula, Ohio, and after visiting friends there continued their honeymoon trip to Buffalo and Niagara Falls.

They will be at home to their friends at their home on Dorey street after July 15th.

The bride was a most successful teacher in the Clearfield schools for the past several years, while her husband conducts an insurance business and is also a valued employe of the New York Central. The Progress joins their host of friends in sincerest congratulations.

ORGANIZING SONS OF ITALY AT OSCEOLA

Due Palmi Ldge No. 189, Sons of Italy, to the number of fifty, headed by President Fred Guarino, went to Osceola on the morning Pennsylvania train Sunday morning for the purpose of assisting in the institution of a Lodge of the Sons of Italy at Osceola.

When the train arrived a band and large delegation met the Clearfield contingent and marched them to the Red Men's hall where the ceremonies incident to the institution of the lodge were held.

National Secretary Paul Depeso, of Philadelphia, had charge of the work and with his corps of able assistants carried everything through without a hitch.

The new lodge starts out with a membership of about sixty of the leading Italians of that section of the county. Antonio Cimino was chosen president.

Following the organization addresses were made by Secretary Depeso; Fred Guarino and President Cimino.

Y. M. C. A. NOTES

The one hundred and twenty-one Y. M. C. A. boys at Camp BoNarr are having the time of their life. On visitors day they gave a good exhibition and circus. Clearfield boys are holding their own with the boys from other towns in points for wrestling, racing, swimming and tent inspection.

Mr. Kerr, physical director of Ridgeway, leads the setting-up exercises in the morning and W. A. Rounsley, of DuBois has charge of the swimming.

Any of the parents of the boys at camp wishing to send anything up to camp can do so, by bringing it to the association and Mr. Graffius will take it up in his car.

The twilight league has started again. Everybody is invited to these games. The "Y" team plays the city team tonight at 6:30 P. M.

The Y. M. C. A. team defeated Woodland again on Saturday afternoon by the score of 9 to 5. Grampian defeated the Third Ward team by the score of 5 to 4.

Many Cases Of Rheumatisd Now

Says We Must Keep Feet Dry. Avoid Exposure and Eat Less Meat

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasinally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism.

NEW TIRE REPAIR SHOP

We will open on Monday, July 14th, a tire repair shop in charge of men who know the tire repair and building trade from stem to gudgeon. They learned the trade at the Goodyear plant and we can tell you that they know about tires from the raw rubber until the tire is on your car.

ONLY GOODYEAR METHODS USED

In re-treading diamond and ribbed treads we use the same methods that Goodyear uses in building new tires. We also make a specialty of cord tire work. This is something that the ordinary vulcanizing plant cannot do as it requires men of experience to perform this work.

N. Y. C. LECTURE ON EXPLOSIVES

Col. Taylor, Special Agent of the Bureau for Safe Transportation of Explosives will deliver lectures on the handling of explosives and other dangerous articles, as follows:

Y. M. C. A., Clearfield, July 15th, 1919, 8 P. M.

A stereoptican and operator will be provided in order to illustrate the lecture and it is desired that all employes who are connected in any way with the handling of explosives or other dangerous articles in transit will attend this lecture if possible.

Tickets for admission will be obtained from the offices of Asst. Supt. W. A. Hamler at Jersey Shore, Pa., and Trainmaster M. J. Quigley's office, at Clearfield, Pa.

As it is desired to keep a record of the attendance, please be particular to see that the tickets are properly filled out giving your name, occupation and residence, before they are presented at the door for admission.

It is particularly desired that this lecture be well attended and every effort should be made by employes to be present.

Few Folks Have Gray Hair Now

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides restoring gradually darkening the hair after a few applications, it also brings back the glossy and lustre and that soft appearance of abundance.

Gossip for Tonight's Tea Table

Mrs. H. P. Bumgardner and Mrs. J. K. Johnson motored to Pittsburgh Friday last to visit with Mrs. W. H. Williams for a time.

John "Red" Lester and Corporal M. E. Wescott, of the Telegraph Battalion landed at Newport News, Va., on Saturday last and are now at Camp Dix, N. J., waiting to be mustered out of the service.

Mr. and Mrs. William Bush, of Turnpike avenue, received word Saturday that their son Alvin R. Bush had arrived safely from overseas and was at Camp Mills waiting to be mustered out.

Carl Schoonover adopted son of Mrs. Lavina Schoonover, spent a week at the Schoonover home in Kylertown after having recently been mustered out of Uncle Sam's army following thirteen months service overseas. He was kept posted on home news thru the medium of The Progress and appreciated its visits very much.

Mrs. Fred Guarino and Mrs. Frank Cimo visited friends at Osceola yesterday.

JORDIE'S FOUNTAIN

Say, have you been in and seen my new fountain? Say, it's a dandy. And I want you to come in and try some of my sodas and sundaes. They're just the same sort of good ones that you've been used to getting but with a little of the "Jordie" goodness added.

Say to your friends, "Meet me a Jordies."

JULY CLEARANCE SALE

The Savings In This Event Will More Than Repay You For Coming

Hundreds of shrewd women have begun to reap the benefits of this Sale. No doubt hundreds of others will do likewise during the remaining six days of the Sale. Our policy is to carry nothing forward—no goods from one season to another—and we MUST get the decks cleared for incoming goods. For these reasons and others, prices have been made so ridiculously that they are a mere apology for the regular figures earlier in the season. The pronounced profits for early shoppers will surprise even the most diligent bargain-hunters. Satisfy yourself—come as early as possible and you will surely find many items to attract you.

A. W. LEONARDSON CO.

Announcement

Beginning Thursday, July 17th, and continuing during the months of July and August, the Hardware Stores of Clearfield will close at 12 o'clock, noon each Thursday.

This action is taken to allow our employes some time for recreation during the hot weather, which we believe is due them. We trust our customers will approve our course, and will arrange to do their buying on other days and on Thursday morning.
